

Policy Title:	Tuition and Fees
Functional Area:	Academic
Status:	Final
Effective:	April 2020
Approved by:	SOM Leadership Council
Policy Contact:	Director of Enrollment Services
Responsible Office:	Office of Admissions and External Affairs
Last Reviewed/Updated:	February 2024

Purpose: The purpose of the policy is to describe UIWSOM's tuition and fees.

Policy Statement

The UIW and UIWSOM tuition and fees are determined in conjunction with UIW leadership and the Board of Trustees. Amounts are determined for each academic year and finalized rates are posted online.

Tuition for the Master of Biomedical Sciences program is established as a per credit hour rate and an annual student fee of \$1,000. Each semester's tuition amount is then calculated by the total number of enrolled credit hours. The student fee is divided evenly between the fall and spring semesters.

Annual tuition for the Doctor of Osteopathic Medicine program is constant across all years of the program within the academic year. Year 1 students are charged a student fee of \$2,200 and Years 2-4 are charged \$1,000. The semester charge for tuition and fees vary depending on the year of program. Year 1 and 2 tuition and fees are divided into two installments: fall and spring. Year 3 and 4 tuition and fees are divided into three installments: summer, fall, and spring.

If a student takes a leave of absence, withdraws, or returns from a leave of absence mid-semester, they may be eligible for tuition proration. Prorated amounts are determined by the number of units/rotations within the semester and the rate charged for the applicable semester.

If a student repeats coursework, they are charged tuition at 50% for the repeated unit/rotation.
