Crime Prevention

Protect yourself against crime

CRIME PREVENTION

There are many precautions one can take to protect themselves against crime:

- Be aware of your surroundings
- Always walk in well-lit areas. Walk with a buddy if possible.
- Be familiar with the call boxes located around campus.
- Always lock your doors. Never keep cars or dorm rooms unlocked.
- Park in well-lit areas.
- Do not lend your keys to anyone or allow anyone access to your rooms if you will not be present.

CRIME PREVENTION CONTINUED

- Never leave valuables unattended (i.e. purses, laptops, books, backpacks, etc.).
- Never give out personal information (i.e. social security numbers, student ID numbers, etc.).
- Do not carry large sums of money.
- Listen to your instincts; if something looks suspicious, avoid contact if at all possible. If you suspect you are being followed, head into a campus building, towards a group of people, or a well-lit area.
- Keep emergency phone numbers readily assessable.
- Report suspicious activity or hazardous conditions to the University Police Office.

DO NOT WAIT TO CALL!

If you see a suspicious person or action, call the police immediately and answer all questions asked. Provide Dispatch with identifying description of the suspicious person, such as:

- SEX - Male or Female
- RACE - White, Black, Hispanic or Asian
- AGE - Approximate HAIR - Style and Color
- HEIGHT - Approximate
- WEIGHT - Approximate
- CLOTHING - What are they wearing?
- WHAT WAS SUSPICIOUS?
- WHERE ARE THEY NOW?

Run. Hide. Fight.

ACTIVE SHOOTER

It is a sad fact that the frequency of shooting incidents are increasing in our world. Because of the frequency, there have been dramatic increases in the demand for training in preventive measures across various industries. The video you are about to see helps illustrate some of the concepts being covered in our session.

4. Burglary & Theft

Prevention is simple

BURGLARY & THEFT

Theft and burglary are serious problems everywhere and the University is no exception. Because of the high number of opportunities presented, college campuses have become a favorable place for criminals.

The best ally in crime prevention is to provide our community with the proper education, awareness and crime prevention techniques.

Thieves work in office buildings, libraries, restaurants, residence halls and other places where people gather. Thefts of backpacks, purses, laptops, phones and other electronic gadgets are the most prevalent crime on campus.

By working with the police and following a few commonsense recommendations, you can significantly reduce the chances of a thief stealing University or personal property.

BURGLARY & THEFT CONTINUED

OPERATION METHODS OF A THEIF

When the thief enters a room, or vehicle, they will look for a purse or any valuable property in the more obvious places such as:

- On the floor under the desk or bed
- On the desk
- In drawers, filing cabinets or closet
- In the glove compartment or center console of a car.

If the thief does not locate any property within a few seconds, they will typically leave and look for a better target.

BURGLARY & THEFT CONTINUED

PREVENTION IS SIMPLE

Do not leave your property unattended and do not become distracted and inattentive to the point where property can be taken from under your nose. Thieves looking for valuables to steal will often search offices, common areas or apartments where there is little to no pedestrian traffic. They will check up and down the hallway to see if there is opened or unlocked office doors. Thieves usually do not operate in a building where most of the doors are closed or rooms occupied.

Just a few simple steps can help:

1. Lock your doors and take your keys when you leave.
2. Participate in the UIW Operation ID Program.
3. Do not prop open doors.
4. Hide your valuables when not in use.

5. University Police Department

It's your job as well as ours

UNIVERSITY POLICE DEPARTMENT

WHAT IS SUSPICIOUS ACTIVITY?

Anyone who acts in an unusual or frightening manner. Also, anything found or placed in an unusual location, should be considered suspicious.

REPORTING INCIDENTS

All incidents should be reported to the UIW Police Department as soon as possible (ext. 6030).

CALL BOXES AND VIDEO HELP STATIONS

To enhance access to security personnel, call boxes and video help stations are placed around the University.

UNIVERSITY POLICE DEPARTMENT

Members of the University community are vulnerable to the same crime problems encountered by residents of any major metropolitan area. The primary purpose of the University Police is to protect the campus community from criminal activities. The patrolling of the campus and surrounding areas by the University Police is a major factor in deterring crime but, the opportunity for crime continues to exist.

You can assist us in reducing crime on campus by utilizing preventive measures to reduce the opportunity for criminal acts. You are urged both to report crimes and to practice logical prevention techniques to reduce them. We all share in the responsibility for making UIW as safe of a place as possible.

UNIVERSITY POLICE DEPARTMENT

Remember to:

- Be responsible for your personal safety
- Be alert to potential danger
- Trust your instincts
- Be aware of all your surroundings

- Report suspicious activity

ALWAYS REMEMBER

A safe campus is everyone's
